

UPlan Weekly Digest

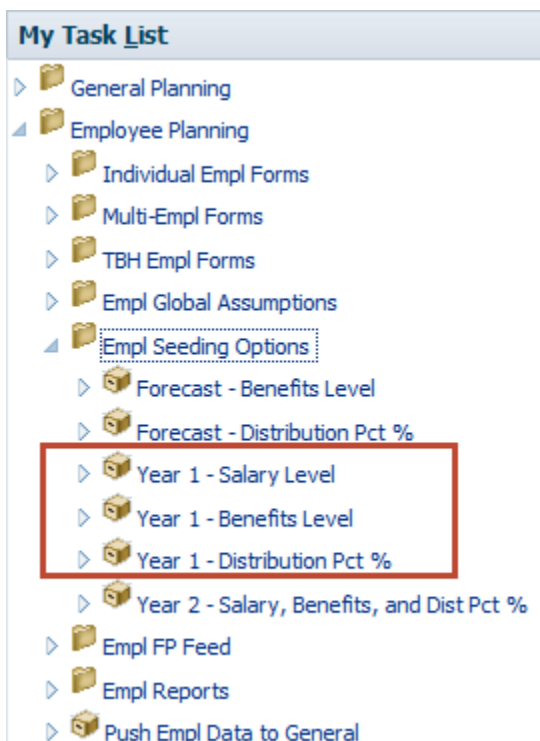

Friday, February 10, 2017

Announcements:

- **Salary Global Assumptions** – The salary global assumptions by bargaining unit/TUC have been updated in Employee Planning at the D999999 level to reflect the campus planning assumptions for 2017-18 and 2018-19. The Salary Global Assumptions form can be found under My Task List > Employee Planning > Empl Global Assumptions in UPlan.

Please keep in mind that only the merit increase for 99's and range increases for all other bargaining units are entered in UPlan. Assumptions for increases that do not occur across the board are not included; these include step increases, equity increases, academic merits, and lump sums. Each Control Point and their departments do have the option to adjust these global assumptions as needed at Level 1 or 2 DeptID's.

Bug Fixes & Enhancements:

- **NEW – Project Dimension with updated Descriptions and Project Uses** – On February 7, we implemented a one-time update to Project Description and Project Use in UPlan. The changes now reflect how these fields appear in PeopleSoft. The process for future project chart field changes will be announced at a later time. For project use changes from/to the FP planning only projects, the actuals for the current year going back to July may be impacted. If your DFP was impacted, depending on the dollar amount, you may want to adjust your Forecast. See your control point coordinator for further information.
- Reference the [UPlan Enhancements](#) page for a complete list of enhancements relevant to the last fiscal year.

Known Issues:

Reference the [UPlan Known Issues](#) page on our website for a complete list of unresolved issues. As known issues are resolved, they will be announced under “Bug Fixes & Enhancements”.
