

# UPlan Weekly Digest

Friday, February 23, 2024

## Announcements:

- **PLUS to UPlan to ODS to MyReports Enhancement:** The following changes have been made to export data from PLUS and UPlan:
  1. UPlan now imports PLUS Forecast data on a nightly basis. All PLUS control points' forecasts are from the prior business day.
  2. UPlan continues to export Forecast and Plan to ODS nightly; this data now includes PLUS control points.
  3. MyReports is importing Forecast and Plan data from ODS on a nightly basis instead of weekly. Updates made in UPlan by 10:00pm are reflected into MyReports the following business day.
- **UPlan New User Training Resources:** Updated training resources, including all recorded sessions from New User Training sessions, are now accessible on the [UPlan website](#).

## Bug Fixes & Enhancements:

- Reference the [UPlan Enhancements](#) page for a complete list of enhancements relevant to the last fiscal year.

## Known Issues:

- **Smart View Error for Mac Users:** Mac users accessing SmartView via Microsoft Remote Desktop are experiencing Excel launch connection errors. We are currently investigating the root cause.
- Reference the [UPlan Known Issues](#) page on our website for a complete list of unresolved issues. As known issues are resolved, they will be announced under "Bug Fixes & Enhancements".
