Planning-Only Projects - Quick Reference

Planning-Only Projects

While planning occurs at the project level in UPlan, sometimes users will need to plan ahead for activity that does not yet have a Project ID or perhaps for a group of activities without Project-specific information yet available. Or, planners may decide to plan at the Project Use level to reduce their planning workload. To accommodate planning in these cases, UPlan includes a series of Planning-Only projects, 13 in total, each one identified as pertaining to a specific Project Use. Planners may select any of these projects and enter plans on the Revenue & Expense form. All planning-only projects have the prefix of ADJ in their description.
