Tips & Tricks:

• Are your Staff Salaries & Benefits missing in your Revenue & Expense form and FR Reports? If so, you may want to refresh the report or your screen if you are pulling at an aggregate-level DFP. Why is this happening? Employee integrations occur at the top of the hour for 2 minutes, and at the half hour for 2 minutes. During this window, staff salaries and benefits data is cleared from the R&E form, loaded in to the R&E form, then aggregated up to higher DFP levels. So if the form was rendered during the two minute window, salaries and benefits may appear missing in your R&E and FR Reports.
