

Report Notes

1 Sheets A and B in this excel file include all the data used to prepare salary and other information in Tables 6-2, 6-3, and 6-4, as well as figures 6-1, 6-2, and 6-3

Individual aculty are assigned an aribtrarily assigned number (1-2,395), in order to make it difficult impossible to identify any one in the group with the name
2 (or UCSF identifier number) of an actual faculty member.

Sheet A includes all data used in chapter 6 for 2,395 UCSF faculty who received salary from any UCSF source in FY2014 and were also assigned to one of the
3 five faculty series. Thus, this file includes faculty who did NOT receive sponsored salary.

Sheet B includes data for the 1,498 faculty who received some portion of their UCSF salary in FY2014 from sponsored sources. These people (and their salary
4 sources, departments, and series) were used to prepare Tables 6-3 and 6-4 and Figures 6-1, 6-2, and 6-3.
